

SARVODAYA COLLEGE, RAJKOT
SAURASHTRA UNIVERSITY INTERSHIP LOGBOOK

Techmax Company – PHYSIO CARE Web Application (Internship Work Log)

Student Name	Barad Urvisha Jagdishbhai
Enrollment No.	2351002UG03285
Project Title	PHYSIO CARE
Organization Name	Techmax Company
Internship Duration	19-01-2026 to 05-03-2026
Daily Hours	4 Hours Per Day

Day	Date	Task / Activity Description	Learning Outcome	Mentor	Guide
Day 1	19-01-2026	Internship orientation at Techmax Company and introduction of “PHYSIO CARE” project with discussion on clinic workflow.	Understanding overall project objective, scope and expectations.		
Day 2	20-01-2026	PHP environment setup using XAMPP/WAMP and VS Code, creation of local project folder.	Hands-on experience in local server configuration and basic project setup.		
Day 3	21-01-2026	Learning PHP syntax, variables, data types and simple PHP scripts.	Basic PHP programming knowledge and confidence in writing simple code.		
Day 4	22-01-2026	Study and implementation of control structures in PHP (if, else, switch, loops).	Logic building and decision-making skills using PHP.		
Day 5	23-01-2026	Creating HTML forms and handling GET/POST methods in PHP.	Form data processing and basic server-side validation.		
–	24-01-2026	SATURDAY – Weekly off as per company policy.	No working hours (holiday).	–	–
–	25-01-2026	SUNDAY – Weekly off as per company policy.	No working hours (holiday).	–	–
Day 6	26-01-2026	Session and cookie management in PHP for tracking user activities.	Understanding user session handling and persistent user data.		

Day 7	27-01-2026	Website layout planning for PHYSIO CARE (header, footer, content sections).	UI structure design and creation of clear page flow.		
Day 8	28-01-2026	Creating Home page using HTML and CSS as per planned layout.	Frontend basics and styling for a physiotherapy clinic website.		
Day 9	29-01-2026	Introduction to MySQL database and understanding tables, keys and relationships.	Database basics and importance of structured data storage.		
Day 10	30-01-2026	Creating database and required tables for PHYSIO CARE project.	Data structure understanding and mapping clinic requirements to tables.		
–	31-01-2026	SATURDAY – Weekly off as per company policy.	No working hours (holiday).	–	–
–	01-02-2026	SUNDAY – Weekly off as per company policy.	No working hours (holiday).	–	–
Day 11	02-02-2026	Connecting PHP with MySQL database using basic mysqli / PDO approach.	Database connectivity and execution of sample queries.		
Day 12	03-02-2026	PDO database connection and performing CRUD (Create, Read, Update, Delete) operations.	Secure database access and data management using prepared statements.		
Day 13	04-02-2026	Admin login system development with session-based authentication.	Understanding authentication system and protected admin area.		
Day 14	05-02-2026	Advanced SQL queries and designing navigation menu and header for the website.	Query optimization and better website structure with common navigation.		
Day 15	06-02-2026	Developing final Home page content with responsive layout.	Responsive UI design and content placement.		
–	07-02-2026	SATURDAY – Weekly off as per company policy.	No working hours (holiday).	–	–
–	08-02-2026	SUNDAY – Weekly off as per company policy.	No working hours (holiday).	–	–
Day 16	09-02-2026	Services page development to show physiotherapy services of the clinic.	Service information display and structured service listing.		
Day 17	10-02-2026	Adding therapist details section with profiles and expertise.	Dynamic content display and better presentation of therapist information.		
Day 18	11-02-2026	Designing appointment booking form for patients.	Form design and capturing all required booking details.		

Day 19	12-02-2026	Home service booking module and saving appointment data into database.	Feature implementation and database insertion logic.		
Day 20	13-02-2026	AJAX booking submission and displaying appointment list in admin panel.	Asynchronous processing and data retrieval in admin side.		
–	14-02-2026	SATURDAY – Weekly off as per company policy.	No working hours (holiday).	–	–
–	15-02-2026	SUNDAY – Weekly off as per company policy.	No working hours (holiday).	–	–
Day 21	16-02-2026	Editing and deleting appointment records from admin panel.	CRUD functionality and maintenance of appointment data.		
Day 22	17-02-2026	Designing Contact Us page with form and clinic details.	User communication page and capturing user queries.		
Day 23	18-02-2026	Error handling and debugging, adding validation in forms.	Troubleshooting skills and error prevention through proper validation.		
Day 24	19-02-2026	Patient management dashboard and improving website layout and CSS.	Admin module development and overall UI enhancement.		
Day 25	20-02-2026	Security best practices and creating patient management section.	Web security awareness and admin panel improvement.		
–	21-02-2026	SATURDAY – Weekly off as per company policy.	No working hours (holiday).	–	–
–	22-02-2026	SUNDAY – Weekly off as per company policy.	No working hours (holiday).	–	–
Day 26	23-02-2026	Testing appointment booking module with sample data.	Feature testing and verification of booking flow.		
Day 27	24-02-2026	User login and registration module development.	User authentication and account creation understanding.		
Day 28	25-02-2026	Backend business logic implementation for different modules.	Backend development and separation of presentation and logic.		
Day 29	26-02-2026	Testing appointment booking and enhancing overall frontend design.	Integration testing and better user experience.		
Day 30	27-02-2026	Integrating all project modules and verifying complete flow.	System integration and end-to-end working of the project.		
–	28-02-2026	SATURDAY – Weekly off as per company policy.	No working hours (holiday).	–	–
–	01-03-2026	SUNDAY – Weekly off as per company policy.	No working hours (holiday).	–	–
Day 31	02-03-2026	Final testing of PHYSIO CARE website.	Technical testing skills and overall quality assurance.		

Day 32	03-03-2026	Preparing project documentation for submission.	Documentation skills and proper structuring of report.		
Day 33	04-03-2026	Reviewing project with mentor and incorporating final suggestions.	Project evaluation and improvement based on feedback.		
Day 34	05-03-2026	Final submission of PHYSIO CARE project and internship completion formalities.	Project completion and closing of internship activities.		

Internship Summary – Days & Hours

Starting Date: 19-1-2026

Ending Date: 05-03-2026

Total Working Days: 34 Days

Total Hours: 34 Days × 4 Hours = **136 Hours**

Industry Mentor:-

Name: Varun Joshi **Designation:** company CEO

Signature:

College Guide:-

Name: Mr. Hardik Dave **Designation:** Professor
